MOTTO: SERVICE WITH HONESTY

December 31, 2023

MARKING THE ILLEGITIMATE AND UNJUSTIFIABLE OVERTHROW OF DR HILLA LIMAN'S PNP GOVERNMENT BY THE PNDC

Today, the People's National Convention (PNC) marks the 43 years of the overthrow of Dr. Hilla Limann, the only President of Ghana in the Third Republic. The People's National Party (PNP), a democratically elected government, was overthrown by the PNDC government through a military coup on the 31st of December 1981.

Dr. Hilla Limann, who ruled for 27 months, believed in moral values and condemned selfishness, greed, and corruption, which he saw as the greatest social evil. It is therefore unjust how he was treated considering his principles.

Interestingly, the PNDC government that removed him from office on allegation of corruption never found any evidence on President Hilla Limann or on his appointees, or immediate family members acquiring wealth at the expense of the taxpayers. The 1981 coup resulted in a decline in the quality of life for Ghanaians and brought immense hardship to the entire nation. Ghanaians lost their dignity and sense of importance due to this coup.

The PNC warmly invites Ghanaians to join us in marking this day and in celebrating this remarkable and selfless leader, Dr Liman. His exemplary life must inspire and serve as a form of education to the younger generation about the true nature of politics as a means to serve and not to be served. We should strive to exemplify the values exhibited by Dr. Limann, ensuring our pursuit of political power is not driven by selfish motives but rather by a genuine desire to uplift the pride and well-being of Ghanaians.

A future PNC government would introduce "Limannism" as a subject at all levels of education to help instill in the younger generation principles of selflessness, morality, and compassion. It will require the PNC to serve as the Biblical David to confront and eliminate the Goliath (corruption) from this country.

Janet Asana Nabla
